IMPORTANT SAFETY INSTRUCTIONS

It is the sole responsibility of the purchaser of Trojan products to read the owner's manual, warning labels and instruct all individuals, on proper usage of the equipment. Understanding each and every warning to the fullest is important. If any of these instructions or warnings are unclear please contact Trojan Customer Services on **0861 TROJAN (0861 876526)**, within the Republic of South Africa. Customers residing outside South Africa can contact us on +27 10 206 4405.

The equipment is only intended for home use and is not intended for commercial, institutional and/or studio facilities use.

Contact Trojan with any questions regarding this classification. It is recommended that all users of Trojan be informed of the following information prior to use.

HEALTH WARNING

- Before starting any exercise or conditioning program you should consult with your personal physician to see if you require a complete physical exam. This is especially important if you are inactive, pregnant or suffer from any illness.
- If at any time during exercise you feel faint, dizzy or experience pain, stop exercising immediately and consult your physician.
- To avoid muscular pain and strain, begin each workout by stretching and warming up and end each session by cooling down and stretching.

PROPER USAGE

- Do not use the equipment in any way other than as designed or intended by the manufacturer. It is imperative that Trojan equipment is used properly to avoid injury.
- Injuries may result from exercising improperly or excessively.
- Repairs other than the procedures in this manual should be performed by an authorised service representative only.

ACCESS CONTROL

- Trojan recommends that all fitness equipment be used in a supervised area. It is recommended that the equipment be located in an access controlled area. Control is the responsibility of the owner. Keep children away from all equipment.
- Parents or others supervising adults must provide close supervision of children if the equipment is used in the presence of children.

SAVE THIS INSTRUCTION MANUAL FOR FUTURE USE AND REFERENCE.

If any of these instructions or warnings are unclear please contact Trojan Customer Services on **0861 TROJAN (0861 876526)** within the Republic of South Africa or **visit www.trojanhealth.co.za**. Customers residing outside South Africa can contact us on +27 10 206 4405.

EXERCISES

SIDE RAISES

Hold the dumbbells at your sides with an over hand grip. Keeping your arms straight lift both dumbbells out to the side and upwards stopping when they are level with your shoulders. Slowly return them to the starting position.

FRONT RAISE

Hold the dumbbells next to your thighs with an over hand grip. Raise the dumbbell forward keeping your arms straight until the dumbbells are shoulder height, then lower them to the starting position.

ALTERNATE BICEP CURLS

This exercise can be performed seated or standing. Hold a dumbbell in each hand using the underhand grip. Curl the dumbbell upwards as far as possible then lower it slowly to your side. As one dumbbell is being lowered, the other should be raised.

EXERCISES

BENT OVER SIDE RAISES

With your knees slightly bent, and torso bent over from the waist. Hold the dumbbells down in front of you with an over hand grip. Keeping your arms straight lift the weights out to the side and upwards as far as possible.

TRICEP EXTENSIONS

This exercise can be performed seated or standing. Each arm is exercised separately. Hold the dumbbell above your head. Bend your arm at the elbow allowing the weight to be lowered behind your head, then extend the arm pushing the weight to the starting position.

SIDE BENDS

In this exercise, each side of the body is exercised separately. Stand holding the dumbbell at your side with an over hand grip. Your other hand should be placed holding the far side of your hip. Lower the dumbbell as far as possible by bending over to one side, then pull your body back to an erect position.

EXERCISES

Using your dumbbells with an Exercise Bench will provide you with a range of different exercises. This will improve your overall exercise routine. The following exercises can be performed on a bench. (Note: the bench is sold separately).

DUMBBELL BENCH PRESS

Lie on your back on a bench with a dumbbell in each hand, using overhand grip. Hold the weights above your chest with your arms straight. Keeping the elbows out, lower the weights as far as possible, then press them back to the starting position.

DUMBBELL FLYES

Lie on your back on the bench with a dumbbell in each hand, palms facing each other. Hold the weights above your chest with your arms slightly bent. Lower the weights to the side as far as possible and then bring them back above the chest.

EXERCISES

DUMBBELL ROWS

In this exercise each side of the body is exercised separately. Lean forward and place one knee and one hand on the bench. With a straight arm hold the dumbbell using an over hand grip. Pull the dumbbell up towards your chest as far as possible, then slowly lower it to the starting position.

SEATED SHOULDER PRESS

Hold the dumbbells over your head, keeping your arms straight. Lower both arms to shoulder height and return to the starting position.

Note: Bench sold separately.

EXERCISE INSTRUCTIONS

Using your Soft Touch Matte Dumbbell Set provides you with several benefits. It will improve your physical fitness, tone muscle and in conjunction with calorie controlled diet help you lose weight.

THE WARM UP PHASE

This stage helps get the blood flowing around the body and the muscles working properly. It will also reduce the risk of cramp and muscle injury. It is advisable to do a few stretching exercises as shown below. Each stretch should be held for approximately 30 seconds, do not force or jerk your muscles into a stretch. If it hurts, **STOP**.

CONDITIONING GUIDELINES

How you begin your exercise program depends on your physical condition. If you have been inactive or are severely overweight, you must start slowly and increase your time on the equipment by a few minutes per workout.

Initially, you may be able to exercise only for a few minutes in your target zone, however, your fitness will improve over the next six to eight weeks. Don't be discouraged if it takes longer. It's important to work at your own pace.

Eventually, you'll be able to exercise continuously for 30 minutes. The better your fitness, the harder you will have to work to stay in your target zone. Please remember these essentials :

- Have your doctor review your training and diet programs to advise you of a workout routine you should adopt.
- Begin your training program slowly with realistic goals that have been set by you and your doctor.
- Monitor your pulse frequently. Establish your target heart rate based on your age and condition.

EXERCISE INSTRUCTIONS

MUSCLE TONING

To tone muscle while on your Elliptical you will need to have the resistance set quite high. This will put more strain on your leg muscles and may mean you cannot train for as long as you would like. If you are also trying to improve your fitness, you need to alter your training program. You should train as normal during the warm up and cool down phases, but towards the end of the exercise phase you should increase resistance, making your legs work harder than normal. You may have to reduce your speed to keep your heart rate in the target zone.

WEIGHT LOSS

The important factor here is the amount of effort you put in. The harder and longer you work the more calories you will burn.

MAINTENANCE

CLEANING

The Soft Touch Matte Dumbbell Set can be cleaned with a soft cloth and mild detergent. Do not use abrasives or solvents on plastic parts. Please wipe your perspiration off the Soft Touch Matte Dumbbell Set after each use.

STORAGE

Store the Soft Touch Matte Dumbbell Set in a clean and dry environment away from children.

FITNESS TIPS & TECHNIQUES

AEROBIC EXERCISE

Aerobic exercise is any sustained activity that sends oxygen to your muscles via your heart and lungs. Aerobic exercise improves the fitness of your lungs and heart – your body's most important muscle. Aerobic exercise fitness is promoted by any activity that uses your large muscles (arms, legs, or buttock, for example). Your heart beats quickly and you breathe deeply. An aerobic exercise should form part of your entire exercise routine.

WEIGHT TRAINING

Along with aerobic exercising which helps get rid of and keep off the excess fat that our bodies can store, weight training is an essential part of the exercise routine process. Weight training helps tone, build and strengthen muscle. If you are working above your target zone, you may want to do a lesser amount of reps. Always consult your physician before beginning any exercise program.

MUSCLE CHART

SOFT TOUCH MATTE DUMBBELL SET

The exercise routine that is performed on the Soft Touch Matte Dumbbell Set will develop the entire body muscle group as well as condition the circulatory system and provide a good workout. These muscle groups are highlighted on the muscle chart below.

CONDITIONING GUIDELINES

EXERCISE INTENSITY

To maximise the benefits of exercising, it is important to exercise with the proper intensity. The proper intensity level can be found by using your heart rate as a guide. For effective aerobic exercise, your heart rate should be maintained at a level between 65% and 85% of your maximum heart rate as you exercise. This is known as your target zone. You can find your target zone in the table below.

During the first few months of your exercise program, keep your heart rate near the low end of your target zone as you exercise. After a few months, your heart rate can be increased gradually until it is near the middle of your target zone as you exercise.

To measure your heart rate, stop exercising but continue moving your legs or walking around and place two fingers on your wrist. Take a six second heartbeat count and multiply the results by 10 to find your heart rate. For example, if your six second heartbeat count is 14, your heart rate is 140 beats per minute. (A six second count is used because your heart rate will drop rapidly when you stop exercising).

Adjust the intensity of your exercise until your heart rate is at the proper level.

www.trojanhealth.co.za

WARM UP & COOL DOWN

WORKOUT GUIDELINES CLEANING

Each workout should include the following three parts:

- 1. A WARM-UP:** 5 to 10 minutes of stretching and light exercise. A proper warm-up increases your body temperature, heart rate, and circulation in preparation for exercise.
- 2. TRAINING ZONE EXERCISE:** 20 to 30 minutes of exercising with your heart rate in your training zone. (Note: During the first few weeks of your exercise program, do not keep your heart rate in your training zone for longer than 20 minutes).
- 3. COOL-DOWN:** 5 to 10 minutes of stretching. This will increase the flexibility of your muscles and will help to prevent post-exercise problems.

EXERCISE FREQUENCY

To maintain or improve your condition, plan three workouts each week, with at least one day of rest between workouts. After a few months of regular exercise, you may complete up to five workouts each week, if desired. Remember, the key to success is to make exercise a regular and enjoyable part of your everyday life.

SUGGESTED STRETCHES

The correct form for several basic stretches is shown at the right. Move slowly as you stretch, hold the position and never bounce.

1. TOE TOUCH STRETCH

Stand with your knees bent slightly and slowly bend forward from your hips. Allow your back and shoulders to relax as you reach down toward your toes as far as possible. Hold for 15 counts, and then relax. Repeat 3 times.

Stretches: Hamstrings, back of knees and back.

2. HAMSTRING STRETCH

Sit with one leg extended. Bring the sole of the opposite foot toward you and rest it against the inner thigh of your extended leg. Reach toward your toes as far as possible. Hold for 15 counts, and then relax. Repeat 3 times for each leg.

Stretches: Hamstrings, lower back and groin.

3. CALF/ACHILLES STRETCH

With one leg in front of the other, reach forward and place your hands against a wall. Keep your back leg straight and your back foot flat on the floor. Bend your front leg, lean forward and move your hips toward the wall. Hold for 15 counts, and then relax. Repeat 3 times for each leg. To cause further stretching of the Achilles tendons, bend your back leg as well.

Stretches: Calves, Achilles tendons and ankles.

4. QUADRICEPS STRETCH

With one hand against a wall for balance, reach back and grasp one foot with your other hand. Bring your heel as close to your buttocks as possible. Hold for 15 counts, then relax. Repeat 3 times for each leg.

Stretches: Quadriceps and hip muscles.

5. INNER THIGH STRETCH

Sit with the soles of your feet together and your knees outward. Pull your feet toward your groin area as far as possible. Hold for 15 counts, and then relax. Repeat 3 times.

Stretches: Quadriceps and hip muscles.

2 YEAR LIMITED WARRANTY

The Manufacturer hereby provides a warranty to the original purchaser of this product ('the Consumer') that this product will be free of manufacturing defects in materials and workmanship which under normal, personal, family or household use (commercial use expressly excluded) manifest themselves within the 2 years from the date of purchase.

EXCLUSIONS

- The warranty does not include and will not be construed to cover products damaged as a result of disaster, misuse, commercial use, not in accordance within the written instructions included with the product, abuse and/or any non-authorised modification of the product, incorrect installation of the product or normal wear and tear.
- All demo models carry a 3 month warranty.

WAIVER

The warranty and the obligations of the Manufacturer provided herein are in lieu of, and the consumer, waives all other warranties, guarantees, conditions or liabilities, express or implied, arising by law or otherwise, including without limitation, any obligation of the manufacturer in respect of any injury, loss or damage (direct, indirect or consequential) arising out of the use of, or inability to use this product and whether or not occasioned by the manufacturer's negligence or any act or omission on its part.

PROOF OF PURCHASE

Any claim in terms of the warranty must be supported by a proof of purchase or a warranty number. Warranty numbers can be issued through contacting our Trojan Call Centre on 0861 Trojan (0861 876526) or online at www.trojanhealth.co.za. Customers residing outside South Africa can contact us on +27 10 206 4405. If such proof is not available, then notwithstanding anything to the contrary herein, the service agent's prevailing charges for services/repairs including call out and/or spares will be payable by the Consumer upon collection or delivery of the repaired product.

The Consumer does not need to return the product to the store. The Consumer should call the Trojan Call Centre on 0861 Trojan (0861 876526). Customers residing outside South Africa can contact us on +27 10 206 4405 and the call centre will advise of the procedure. During the warranty period the product may only be serviced and/or repaired by the Manufacturer's duly authorised agent(s).

REPAIRS PROCEDURE

Should you experience any faults or breakdowns on your Trojan equipment, please adhere to the following procedure to have the fault rectified speedily and professionally.

Do not return the product to the store.

Call the Trojan Call Centre on 0861 Trojan (0861 876526) to log the faulty product (under warranty or out of warranty). Customers residing outside South Africa can contact us on +27 10 206 4405.

The operator or technical advisor will try identify the fault, and will book a service team call out.

The service team will endeavour to fix the problem in your home on an agreed date and time.

Only if the fault cannot be repaired in the convenience of your home, will the service team take the faulty product back to the service centre.

Items repaired in our service centre will be returned to your home on an agreed date and time.

Note: Should you live in an outlying area or outside South Africa, it may be necessary to return the product to the store nearest to you. Our service operator will advise you of your repair procedure.

COST OF REPAIRS

UNDER WARRANTY

Any items still under warranty will be repaired free of charge, as long as it complies with the terms and conditions of the warranty (refer to “warranties” section in this manual). Any items that need to be repaired that are NOT covered in the warranty will be for the consumer’s expense. A quote for the repair/replacement of these items will be provided to the consumer for approval prior to repairs being conducted.

OUT OF WARRANTY

Any items that need to be repaired once the warranty has expired will be for the consumer’s expense including call out fees.

A quote for the repair/replacement of these items will be provided to the consumer for approval prior to repairs being conducted.

**2 YEAR
WARRANTY**

If this product proves to be faulty during normal use due to defective materials or workmanship. Refer to our website for terms and conditions
